# TRAINING PROGRAMME

**Host Organization:** Salesianos Trinidad

**Tutor's name:** Francisco Manuel García

## Description of the host organization

Colegio Salesiano Santísima Trinidad is a private school located in Seville in the district of Macarena (Calle María Auxiliadora). It was founded in 1893 and it offers primary, secondary and vocational education for more than 1600 students. They offer the following specializations: Mechanical Manufacturing Programming, Electrotechnical Systems, Electronic Items Development, Automotive, Mechanics, Electric and Mechanic Installations, Consumer Electronics, etc. The school offers various extracurricular activities such as painting, theatre, football, basketball, laboratory, sports events etc. Additionally, it mediates between companies and students in order to help them find a job. Colegio Salesianos de la Santísima Trinidad consists of many professional experts specialized in different fields of teaching. They have large knowledge and experience in the teaching sector. The school has taken part in many international programs and, therefore, the employees are used to receiving trainees from abroad. The tutor, Francisco Manuel García, has an extensive career as a vocational education and training coordinating. He studied Marine Engineering, specializing in operation and weaponry. He is also an automotive technician, as well as an automotive electronics and metal industry specialist. Apart from an education typical of an engineer, Francisco has completed various courses related to IT and the car industry.

## Description of the training programme and objectives

The training program is divided into 3 stages in accordance with the length of the trainees stay in the host company

### 1st Stage

- Getting to know the company, tutor and the team
- Getting familiar with the company structure, premises, rules, health and safety procedures
- Getting familiar with the company affairs and projects
- Getting familiar with the extent of the company's business activity: local, regional, national or international
- Providing a brief overview of the tasks and projects the trainee will get involved in

## Participant's opinion about his/her personal & professional development

In my opinion, internships are fun. Working in a team is very good. We get along very well with colleagues. The equipment is not the best. Jose is a very good teacher. He is fun and knowledgeable. It is very hard to get along with the rest of the teachers. In the event of a problem, they help very little. Despite the problems, the atmosphere at the workshop is very nice.

## Participant's opinion about his/her personal & professional development

Seville is a very nice city. People are nice and helpful. Andaluzian's people are very nice. The equipment could be better, but it is not to bad. Jose, one of our tutors is very helpful and funny. We integrate in the group. Work in the workshop goes according to plan. Spain has very well-preserved monuments. After the first week, I found the trip successful and i hope it will be to the end.

### Participant's opinion about his/her personal & professional development

The school we are attending is very nice, pretty big and has a lot of useful equipment. Teachers watching over us are helpfull and funny. It has everything anyone could need.

Spain is a beautiful country, it is hot and sunny, sometimes rainy. Sevilla is equally awesome, people are nice and helpfull. It is easy to get everywhere from anywhere.

The place we are staying in is clean and comfortable. Food is not the best, but it is good enough to not be hungry. Staff cleans rooms exactly. I really enjoy being here.

### Participant's opinion about his/her personal & professional development

I met cool new people.

I had the opportunity to test my knowledge of the English language in practice.

I learned to work in a group.

In the first days of my practice, I learned to weld, grind and cut.

The next days are learning how to connect elements according to the drawing, quality control and error correction.

I visited Seville, saw the Easter processions, the Jewish quarter of Santa Cruz, the Maria Luisa gardens and the Plaza de Espana.

I was also on a trip to Cadiz which is the oldest city in Spain.

Saw Catedral Nueva, City Hall, also was on the beach and saw the Atlantic Ocean.

I learned a lot of interesting information about Spain from the guide

## Participant's opinion about his/her personal & professional development

I like the internship in Seville very much. We have great carers. We can always count on help in the place where we live and in the place of the internship. During the first week, I learned a lot of new things. Sevilla as a city made a huge impression on me. The people on the streets are very nice, but they often do not speak English. The architecture of the city is amazing. The well-preserved monuments are impressive. After the first weeks, the trip was successful

## Participant's opinion about his/her personal & professional development

Before coming to Spain, I set myself goals that I mostly met. I integrated very quickly with the group, although I did not know most of the people. I acquired new skills that will surely be useful in the future. Our tutor Jose put a lot of work into integrating with us, he adapted to us, he likes jokes, fun and helped us at work. We spent a lot of free time with the group playing football, often until late at night. I really enjoyed the trip to Cadiz, swimming in the Atlantic Ocean will stay in our memory for a long time. Meetings with other groups were also very interesting, we met new interesting people. This two-week stay was very interesting and we will all remember it for a long time. I would choose here again

### Participant's opinion about his/her personal & professional development

Good morning. I think about Spain that it is a beautiful city, with nice places, for example the Spanish square or the old town. Regarding internships, the only drawback is the commute for an internship, which takes around 40 minutes.

The teachers who look after us during the internships are also nice, polite. Josè is the best teacher. If we do not understand something too much, he will approach and explain it to us calmly. Spaniards are cheerful, friendly people, they easily establish contact with tourists. The program in which I participate is good, we have free time, we have a playground close to where you can play. Practice hours could be earlier. Culture in Spain is surprising but nice.

## Participant's opinion about his/her personal & professional development

In my opinion, the internship in Spain is a very successful trip. In practical classes, we learn very useful activities. The construction of the e-buggy is efficient and of good quality. During internships, we improve our skills, among others, in welding and metalworking. Caregivers help us when we can not cope with something. Mr. José is the best guardian so far. People in Spain are very friendly and helpful. We regularly visit the city in a group and get to know the architecture of Seville. This Saturday we visited Cadiz.

Good morning

Spain is really a place full of attractions that we can use. The weather is really beautiful and it is good for us all the time. We have really interesting trips planned, during which we learn a lot of new things. Thanks to this project, we have the opportunity to practice in a new plant in which we gain new experiences and learn a new language. The caregivers are really nice and explain to us all the things we understand. The only downside is access to sometimes crowded buses.

### Participant's opinion about his/her personal & professional development

Spain is very interesting country. Here in Sevilla, we can see regional culture and traditions. Our tutors are very polite and helpful. Jose, one of our tutors is brilliant teacher, he showed us how to weld by arc welder. Work on e-buggy is difficult, because we need to be accurate. Sevilla as the capital of Andalusia has many historical monuments. The Alcazar or the Cathedral de Sevilla are beautiful examples of various building styles, which we can meet in Sevilla. I have tried Spanish food, it was tasty but I did not like everything they eat here. In this week I learned new things and I like it.

### Participant's opinion about his/her personal & professional development

My name is Michael. I am attending practical lessons at Salesiano Santísima Trinidad school. The school is large, well-equipped. In practical classes i learned a lot of useful activities. Spain is a very nice country. Sevilla is a large, climatic and nice city. People are very friendly and smiling. In our center, the rooms are nice and clean. Food is good and fresh. Room service is nice.

# PROJECT MANAGEMENT

## Mobility Project Preparation & Induction

Before the arrival of your trainees in Spain, euroMind provided them with the pre-arrival guide, including useful information, local transport & social life, emergency numbers.

euroMind has also arranged Skype meeting with the participants in order to get to know them and to interview them.

After the Skype interview, euroMind created a Facebook group to which all the selected participants were invited, together with their Teachers. This way euroMind Coordinator had constant contact with the target group already before their arrival in Spain.

euroMind took responsibility for preparing Learning Agreements individually for each participant and made sure that all the parties involved signed all the necessary documents.

On the first day after the arrival, euroMind organized the welcome session during which the participants got to know the euroMind team, were reminded about the programme agenda, accommodation rules and dissemination strategy options.

Later on, the participants were taken for a walk around the neighborhood to get to know the area and find out where banks, mail box, workplace, supermarkets, bus station are.

## Monitoring & Monitoring

In order to make sure that the objectives of the Learning Agreement were going to be achieved and that the participants would be fully integrated in the companies' work culture, the monitoring was delivered by all of the parties involved in the project.

euroMind assigned a Mentor for the group of participant who was responsible for the introduction of the participants to the host organisation. During the training the Mentor delivered monitoring visits to the host organisation in order to revise the tasks of the trainees, their progress as well learn from the first hand the level of satisfaction of both the participants and the training centre Tutor.

The Mentor in cooperation with the Tutor carried out the evaluations of the trainees in the middle and at the end of the training.

After obtaining the results of the half-way through evaluation, the Mentor met the participants to give them the results of this evaluation. The least favourable results were discussed with the

participants in private so that both the Mentor and the trainees had the comfort of sharing the information and exchanging the opinions and finding solutions to some problematic issues.

The Tutor from the host organisation was responsible for helping, informing and guiding and supervising the work done by the participants. The tutor had regular meetings with the participants in order to assess their progress during the training.

euroMind at the end of the programme during the goodbye session handed out evaluation sheets to the participants so that they could assess their stay in Spain, training programme, as well as the work of the euroMind.

euroMind was also available to the participants 24/7 in case of emergency.

## Communication

EuroMind takes good care of successful communication between host organizations and trainees. Each evaluation of work is aimed at improving the quality of cooperation. Each party is thoroughly checked and assessed and the necessary improvements are introduced. Moreover, euroMind mediates in this tutor-trainee collaboration by translating and solving language-connected complicated matters.

## Dissemination strategy

euroMind took active part in the process of preparing and dissemination results of the project together with the sending organisation and participants.

While the trainees were in Spain, euroMind involved them in a number of activities the aim of which was to make students monitor and collect all the information related to the progress of their work placements and stay in Spain. The materials produced by the participant would be then used as tools for disseminating results by the school in their country and by the partner in Spain.

The participants could work in groups or individually. On the first day they needed to decide on the form or forms of recording their professional experiences.

As a rule the whole group needed to create a Facebook fan page as it is an effective and quick means of accessing large numbers of people. What is more, it is a form that appeals to young people as they can share their experiences instantly and receive instant feedback, too. The fan page is always linked to the euroMind's Facebook fan page. The sending organisation was also asked to do the same thing.

This way the material produced by the trainees reached bigger audiences and was more effectively disseminated.

Apart from the Facebook fan page, the trainees were encouraged to prepare a PowerPoint presentation in English which they would be able to use to disseminate the results of the project back home (conferences, meetings with other students, parents, etc.).

euroMind also disseminates the project at a local level. It organises language and cultural exchanges between the international trainees and students from local vocational colleges. During those meetings both Spanish and International students are involved in a number of activities the aim of which is to get to know each other, share experiences related to work experiences and in general their stay in Spain. The students also exchange information about their countries and cultures.

### **Certification**

To validate the acquired skills, the trainees, at the end of their stay, received complete proof of their participation in the project by means of several methods of recognition:

- Training Certificate
- Europass Mobility Certificate
- ECVET

# CULTURAL & LINGUISTIC PREPARATION

## Cultural activities, Andalusian cities & places visited during the programme

Walk around Seville city centre : Seville is the artistic, cultural, and financial capital of Andalusia in the southern region of Spain. The city is a historical masterpiece full of monuments, gardens and flamenco festivals. The city reflects the harmony between different Christian, Jewish and Muslim cultures and religions.

As Seville is the capital and the largest city of the autonomous community of Andalusia, it is easy to get lost here, however thanks to the tour organised by euroMind's team, the trainees were able to admire the city safely and in a pleasant atmosphere. The euroMind coordinator helped the trainees understand the city from a historical and artistic point of view, but also gave them some shopping and eating tips. The group were shown the best places where they could go and grab something to eat, drink and have fun or just relax and hang out.

1 Trip free of charge: choice depending on the availability of trips at a given time : **Cadiz - GRATIS** : Cadiz is located in southwestern Spain and is often considered the oldest city in Europe as it was founded in 1100 BC. It is a typical Andalusian pueblo blanco (white town) with many attractive sights and well-preserved historical landmarks. It is located by the ocean, and was the starting point for Christopher Columbus expedition for the discovery of the Americas. During the day trip, the group visited the city centre which is surrounded by old buildings and many cafes and bars, the baroque style Cathedral, the oldest fish market in Spain, The Tavira watchtower and the plaza de España where the first Spanish democratic constitution was signed. Finally, the group were able to relax on Caleta beach for the rest of the day.

# SUMMARY OF THE PROJECT

euroMind team did their best in order to deliver the best professional and cultural experience to the trainees of the project being always ready to help, give advice and solve any problems or doubts.

The trainees were fully satisfied with their training. They gained much needed professional experience abroad which is highly appreciated and sometimes even specifically asked by today's employers.

We have no doubt that our trainees will use their new knowledge and experience at their current work in their home country or increase their chances at the labour market and dazzle their future potential employers.

Moreover, the trainees learnt the basics of the Spanish language were able to work in a multi-cultural environment and proved themselves with the ability to work individually as well as in a team.

euroMind team was extremely satisfied with the trainees' involvement in the project and personal interest in whatever they participated in.

This project was very successful and we hope to realize other successful projects with Zespół Szkół Zawodowych im. Marii Skłodowskiej-Curie w Płocku in the future.
